Such education programs include without limitation:

- Student Orientation: Students receive information about Title IX, the mandatory online training for all incoming students, and how to report incidents of sexual misconduct. The presentations are done at all orientations prior to the start of each semester. For more information, please contact the Student Affairs at (661) 726-1911 ex105.

- There must be evidence of unlawful entry (trespass). Both forcible entry and unlawful entry – no force are counted.
- The unlawful entry must occur within a structure, which is defined as having four walls, a roof, and a door.
- The unlawful entry into a structure must show evidence that the entry was made in order to commit a felony or theft. If the intent was not to commit a felony or theft, or if the intent cannot be determined, the proper classification is Larceny.

15 **Definition of On-Campus Student Housing Facility**: For the purposes of the Clery Act regulations, as well as the HEA fire safety and missing student notifications regulations, any student housing facility that is owned or controlled by the institution, or is located on property that is owned of controlled by the institution, and is within the reasonably contiguous geographic area that makes up the campus is considered an on-campus student housing facility. This definition clarifies that any building located on campus on land owned or controlled by the institution that is used for student housing must be counted as an on-campus student housing facility, even if the building itself is owned or controlled by a third party.

16 **Campus Law Enforcement Policies**: In cases involving on-campus, USD cooperates fully with local, state, and federal law enforcement agencies. These agencies may include the local Police Department. The University encourages accurate and prompt reporting of all crimes to the USD and/or appropriate police agencies regardless of whether the victim elects to or is able to make a report. Please note that any emergency that requires immediate attention should not wait to report to the school’s officer but rather should contact the appropriate agency by calling (911).

17 **Missing Students Notification Policies and Procedures**
University of Antelope Valley
CAMPUS SECURITY ACT DISCLOSURE STATEMENT – Clery Act

Campus emergencies are reported to the USD in person or by telephone. The security department provides assistance with the reported incident. Based on their training and experience officers make a determination if the incident meets the criteria of an emergency or dangerous situation which may be an imminent threat.

The University will issue emergency notifications, without delay, in response to a confirmed significant emergency or a dangerous situation, occurring in the Clery defined on campus geography that, in the judgment of the University, constitutes an immediate threat to the health or safety of members of the on-campus community.

Once USD has received the report, the President (or management designee), will confer with the appropriate public official (e.g., fire chief, health department) and any campus officials responsible for managing the on-campus emergency, if available, to confirm both: 1) an emergency or dangerous situation in fact exists in on-campus geography; and 2) the emergency or dangerous situation poses an immediate or imminent threat to members of the on-campus community.

If both of the above factors are not met, no emergency notification will be issued.

If it is determined that both of the above factors are met, then an emergency notification will be issued to the community.

They will also determine, based on the confirmed facts of the emergency, if the entire campus community or only a specific segment of the on-campus community is threatened and needs to be notified. The following process is followed by USD:

- Examining the potential that a large segment of the campus will be affected
- Examining the potential that the operation of the campus as a whole may be threatened
- A continual assessment of the situation to determine the notification of additional segments of the campus.

Examples of emergencies where only a segment might be alerted would be a fire contained in a dorm laundry room where only the residents of that one dorm floor or of that one dorm building are at risk and need to evacuate, or a chemical spill in a lab where only the one room, floor, or the occupants of that one building are at risk and need to evacuate.

The President (or management designee) will prepare the content of the notification taking into account the safety of the on-campus community. The content of the notification will be developed by examining the nature of the emergency and crafting the notification to provide the most protection for all individuals. The President (or management designee) will make the determination as to how much information is appropriate to disseminate based on the situation. Once the notification is prepared, the President (or management designee) will without delay and taking into account the safety of the community, determine the content of the notification and initiate the notification system unless issuing a notification will, in the professional judgement of the responsible authorities, compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency, including the ability to provide immediate, life saving measures.

The initiation of the notification often begins with an officer assessing a situation to determine if it meets the criteria for a notification. If the officer believes a notification is warranted the officer in turn makes notification to the President (or management designee). The President is then responsible for the initiation of the notification process by assuring the person transmitting the information is clearly informed of the method in which the notification will take place.

Distribution methods of emergency notifications may include, but are not limited to, one or more of the following methods:

- The campus mass notification system including, but not limited to, phone, campus email, or text messaging
- Audio/visual message boards
- In person or door-to-door notifications in a building or residence halls
- Other means appropriate under the circumstances

Students and employees who need information on how to add contact information to be included for emergency notification or to remove information and "opt out" of notifications should contact the IT office at (661) 726-1911 ex144 or https://www.uav.edu/SIDHelp.php?action=form&parameters=6 for assistance.
18. Fire Safety Report

The 2018 Annual Fire Safety Report is provided in compliance with the Higher Education Act, as amended by the Higher Education Opportunity Act, Public Law 110-315, also known as the Clery Disclosure Act, and California Education Code section 67380. This report informs the campus community about important procedures, policies, crime prevention programs, and campus crime statistics.

Compilation of information for this report is accomplished through cooperative efforts with the University Security Department (USD) and the Office of Student Housing. Fire Safety information is presented as it relates to Student Housing.

The Fire Safety System

The fire safety system includes a notification system which annunciates locally in the surrounding area and notifies USD.

In Student Housing, there are fire alarms in the hallways and rooms of all the buildings. Fire extinguishers are located in the hallway at the north side of the southern dorms and the south side of the northern dorms. In Student Housing, there are three pull stations per floor located at all emergency exits and stairwells. On the first floor they are located near the emergency exits and they are located near the stairwells on the second floor. Each room is equipped with individual smoke detectors. Where hearing impaired students are housed, strobes have been added to the alarm systems in hallways for notifying such students. The entire system is checked at least annually to ensure operation of every system component. In the event the system is out of service, the USD institutes a manual fire-watch for the duration of inoperability.

Fire Drills

Mandatory supervised fire drills involving the campus’s residential population occurred four times this past year, every quarter. Fire drills include student housing evacuation, as discussed in the Student Resident Handbook, with oversight assistance by Residence Advisors and the University Security Department. During Professional Staff and Residential Assistant training, fire safety policies and protocols are reviewed and each staff member receives a copy of the policies and protocols.

Policies on Portable Electronic Appliances, Smoking, and Open Flames

Residential housing policies, protocols, and rules for portable electrical appliances, open-flames, and smoking are contained in the Student Resident Handbook (Policies and Procedures). Per the Student Resident Handbook, the following actions are prohibited and may result in adverse action up to and including prosecution or fines:

- Tampering or damaging fire equipment or intentionally misusing fire alarms, smoke detectors, fire sprinklers, fire extinguishers, emergency exit signs or pulling the fire alarm when the cause is unrelated to notification of a fire.
- Intentionally or negligently causing and/or creating a fire, explosion or release of poisonous gas or fumes.
- Failure to evacuate a building immediately following the sounding of an alarm, unless otherwise instructed by Residential staff, fire-safety or other emergency response personnel.
- Possessing or storing gasoline, fireworks and/or combustible decorations and chemicals in campus residential housing.
- Storing fuel-driven engines including motorcycles, mopeds, etc. in campus residential housing. They may be parked in campus parking lots as long as they follow all University Security Department and Parking Services guidelines.
- Open flames (including candles and incense), combustible decorations and chemicals, deep fat fryers, electric fry pans, grills, space heaters and halogen lamps are prohibited in campus residential housing.
- Disabling, opening, damaging, or propping exits used exclusively as fire exits is prohibited in campus residential housing (unless being used properly as an exit during an emergency situation).

Smoking Policy

Smoking is prohibited in all buildings. Smoking is permitted only at the designated smoking areas, as follows:

- South West corner of campus
- Across from Grand Ballroom entrance
Housing Evacuation Procedures
In the event of a fire alarm, stay calm. Before exiting the room, feel the door for heat and look at the door seals for signs of smoke. If the door is hot or you see smoke, stay in your apartment, put a wet towel at the base of the door, and call for help. If it's safe to exit your room, put your shoes on, grab your keys, and evacuate the building immediately. If it's safe to do so, bring a wet towel to cover your nose, mouth, face and head if necessary. IF YOU ENCOUNTER SMOKE, STAY LOW. IF YOU ARE OVERCOME BY FLAMES: STOP, DROP, ROLL, AND COVER YOUR FACE.

Move to the designated Evacuation Point outside the building, and wait for instructions from a staff member. For Student Housing, please evacuate to the following area:
- North West of Property: (next to the gate at the rear of the campus property)
  - Students located in the dorm facilities and anyone located in the 3-story building

Look for your Resident Assistant, or a member University Staff. Whenever the fire alarm sounds you are to leave your room at all times even if there is no fire or smoke immediately outside your door.

Fires Can Be Reported
To report fire emergencies on campus should be reported directly to the University Security at (661) 609-4348 or calling 9-1-1.

19. Peer to Peer file sharing
Students authorized to utilize the institutional electronic equipment for purposes of conducting research, practical work, writing essays, doing homework assignments or in any general use of the equipment for course related work, are strictly unauthorized to copy or distribute any copyrighted material and any violations will subject the individual violator (staff member, non-staff member or student) to civil and criminal liabilities. The first violation will be punished by removing any authorized privilege use of any institutional equipment, if the violation includes the use of individually owned equipment, the individual will not be allowed to bring in his/her personal equipment into the school premises. Second violation the staff member may be terminated or the student may be expelled from school. This decision will be taken by the school administration. The institution conducts annual evaluations of the procedures in place to prevent any violations of copyrighted materials observing the need of the students to have access to the institutional network. The institution will keep a log summarizing violations reported and disciplinary actions taken.

The institution does not maintain any special relationship with State and local police and does not have an agreement with those police agencies (such as written memoranda of understanding) to investigate alleged crimes.

This Institution encourages students to complete a timely reporting of all crimes to the campus administrators, police and appropriate law enforcement agencies

This institution encourages students to immediately report an incident where an emergency evacuation will be needed. All students should be familiar with the evacuation procedures posted in several key places around the campus.

Students and employees should refer to the following person or agency when reporting or seeking help on a criminal incidents. Please note that any emergency that requires immediate attention should not wait to report to the school’s officer but rather should contact the appropriate agency by calling (911).
